

STORM FURY ON THE PLAINS

Meteorologists from the Wichita office of the National Weather Service will present the training.

Main Training

March 2, 2023

6:30 p.m.

Cox Building

Howard, Kansas

The program provides severe weather training and education for everyone. Plan to spend up to two hours learning about storms and severe weather safety. The sessions consist of a multimedia presentation, lecture, and question and answer period. It is free to the public and no registration is required.

If you have any questions, please contact Chance Hayes at chance.hayes@noaa.gov or your local Emergency Manager

This program is presented by a cooperative effort of Elk County Emergency Management,
and

The National Weather Service Office in Wichita, KS
